DEPARTMENT OF STATE  
WASHINGTON

MEMORANDUM FOR: THE PRESIDENT

FROM: Strobe Talbott, Acting

ST

SUBJECT: Meeting Unfunded FY 1994 Requirements for Haiti,  
Rwanda, and Bosnia

Three major international humanitarian crises are straining our remaining FY 1994 resources. Our unfunded Haiti costs have risen to over \$100 million and we have further requirements in Rwanda and Bosnia of over \$80 million. The Departments of State and Defense will have to bear most of these expenses by internal reprogramming. This will involve considerable pain for both Departments, and we have not been able to agree on how to divide these costs.

The principal resources available for these purposes are State's Migration and Refugee Assistance (MRA) and Emergency Refugee and Migration Assistance (ERMA), DOD's Defense Emergency Response Fund (DERF), and two types of drawdown authorities which allow a total of \$150 million in Defense articles and services for military assistance and for migration and refugee assistance. Foreign assistance resources such as Economic Support Funds (ESF) and Development Assistance could be used for a few items, mainly pre- and post-resolution assistance costs, but these are in extremely short supply and will need to be reprogrammed from other country programs. We could not do so without impacting adversely on the Latin American countries whose support we will need for UNMIH participation or reducing assistance to Turkey.

The following table represents my best judgment as to how we can meet our needs for Haiti, Rwanda, and Bosnia for the balance of the fiscal year. This arrangement will effectively deplete our MRA and ERMA funding for this fiscal year, leaving almost no scope for any new emergencies. In addition, our post-resolution Haiti assistance costs, which will be over \$200 million for the first year, and our assessments for an expanded UNMIH operation of \$100-200 million over 12 months are not included in the totals, since I do not know how much of this, if any, will be needed this year. There will clearly be a heavy burden on the international affairs budget in FY 1995, however.
